DETAILED ACTION

Claim Objections

1. Claims 1, 4 and 7 are objected to because of the following informalities:

In claim 1: “computing smoothing intensity” in lines 5-6 should be “computing a smoothing intensity”; “from intensity” in line 7 should be “from an intensity”. The same with claims 4 and 7.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-79 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the intensity computation step in line 5 is for **computing smoothing intensity** while the line 11, **the intensity is “set”**. Clarification is needed on whether the same intensity is claimed or different intensities: the computed intensity and the set intensity.

The same with claims 4, and 7.
